“ *Clint Roller was a natural when he took hold of the controls of a draw works. He could steady the blocks on a listing derrick and fly the elevators to the board without touching a girt. Even at a young age, he had seen so much and knew so much that he had a sense of when things were about to go bad. At those times he would stop and discreetly warn guys like myself to beware. I pray his rewards are great in Heaven.*

“ There is so little one can do or say to bring your family consolation at this time other than for you to know that this is a loss felt by me personally and one felt by our community as I understand from reading Facebook

Comments that Clinton made such a contribution to his little part of the world. He always had a kind word, a smile and a willingness to help in any situation in all the years since I first came to know him before he ever started school, So many others truly care and share your grief with you as his light has gone dark. My sympathy, love and prayers are with you all in your grief; but I am confident that you will all later come to have many happy memories to share with each other in the future about Clint. My husband David Jones joins me in expressing our sincere condolences, God bless you all, my dear friends and Parks' Family.
