“ *Mr. Rozzell is one of the few select teachers I had that really stand out in my mind. He was funny and he genuinely cared for every kid that came into his class. He had faith in me when I didn't have faith in myself seeing as how math was never an area of confidence for me. Such a wonderful teacher and a wonderful man in general.*

“ Mr. Rozzell was at the top of my list of favorite teachers. He was a great math teacher. He was funny, fair, and kind. He taught me sixth grade math and during that somewhat awkward in-between stage in life, he was always willing to not only teach us, but also listen to us. He had a great sense of humor and was extremely patient. We knew Mr. Rozzell genuinely cared. He was an extremely hard worker at teaching, after school activities, and additional jobs. Occasionally after graduation, I had the privilege of running into Mr. Rozzell at a football game or around Pauls Valley. It was always great to see him and catch up on what was going on in our lives. Mr. Rozzell was a truly great man. I am so sad to hear of his passing. My deepest sympathy goes out to his family.

“ I remember being upset for failing a test that I ripped it up. Soon after, he wanted us to go over the test. There I am sitting there with this "Oh, crap!" look on my face and he sees me. Now, I have to explain. He told me to get it out of the trash and tape it back together so we could continue. The moral of this story is not to rush ahead and not get caught up in emotion. He was always firm and fair. And he will be missed.
