“ *The respect and affection for Jim Newby was broad and deep. His knowledge of the history of rural policy and finance helped guide programs and strategies that provide reliable power, state-of-the art communications and clean safe water for rural communities nationwide. He was the mentor, guide and friend for dozens of us that worked for and with him. His connections and his leadership help us continue to work hard for rural America.*

“ *I am so sorry to hear the news of Newby's passing. He was the definition of the best coworker--managing to always be a true stand-up guy while still being a total character. I greatly enjoyed working with him--truly one of the "good guys." My deepest condolences to his wife and family.*

“ To Gladys and Jim's family I send my most sincere condolences. I left Kentucky 3 times to work in Washington DC during 3 presidential administrations, so I encountered a lot of career government employees. I was blessed to work with some of the best, especially in the U.S. Dept. of Agriculture. My aim was to bridge the gap between rural Americans and the government. Jim Newby was the consummate public servant. He served with the greatest dignity, fairness and always a dry sense of humor to help you get thru the day! I treasured my time working alongside Jim Newby. He gave me great advice and guidance and rural families are better off today because of his service! RIP dear Jim, and thank you for all your help, advise and friendship. Hilda Legg

“ Newby taught me how to be a supervisor. He always protected his employees. He would put his name forward every time there was a big mistake that needed to be reported to Congress. EVERY SINGLE ADA violation. When I grilled him on why he always threw his own name under the bus, he always said, “what can they do to me? Fire me? I’ve been retired 3 times!”
