“ *I can not say enough about this wonderful man. I'm just so blessed he was part of my life. He was a great Chrioprctor, a great boss, and a great friend. He has doctored me for just about everything I can think of he even became my psychiatrist!! Yes he was that smart I would have gone to him for anything. I will for ever miss that whistle and that laugh! (oh that laugh)! He would come in the room and how are you sweet pea he would say! He would work on me and say.... Now get out there and run some why don't ya!! 😭 He never failed to ask how Troy was doing either and always told me to take it easy on him. I loved this man with all my heart. Everyone needed a Larry Clipperton in their life. You may be gone from this earth but you will NEVER be forgotten Doc!!*

“ *I think all of you know how very much I loved him. He was the best boss, friend and chiropractor. I really had hoped that this day would never happen, he should have lived forever. I am so sorry that he has died but I am forever grateful that he lived and that he shared life with all of us. You all know to let me know if I can do anything.*

“*Dr. Clipperton, (or Larry as most called him), was not only a wonderful doctor, but a great man. I was told to go to him 17 years ago by a fellow teacher in our district (PV). He became my go to for all medical things. About 8 years ago my right side was hurting so bad I thought I would pass out. I left after school and went to Larry's office. He brought me in and did the rebound test. I nearly fell off the table. He said well sis, I think you need your appendix out. He loaded me up in his truck, and took me to Dr. Whitehouse through the backdoor. Didn't question why I came to him and not my family doctor. He just took care of it w/ love and compassion. He told me to call that man I was married to and get better. People make fun of me for going to my chiropractor for appendicitis, but I never questioned it. I trusted him more than anyone. What a wonderful man. On a side note. He would see my husband every morning at Rapid Robert's and always said, "What's up big guy." He never failed to be a good human.*
