“ I regret I never told him thank you. He played a part in making me the person I am today. I remember every Halloween we would take my little sister trick or treating and since I didn't complain about it once trick or treating was done he would race around town taking me to as many haunted houses he could that always made me excited and the way he was driving to each of those haunted houses I believe he must have gotten some excitement from it as well (probably the part of seeing me come out of some of those houses terrified lol) Thank you Mel for helping raise me during that time and helping me know how to be the best I can at all times. You will be missed
