“ *Ray was taken far too soon. It was our distinct pleasure to have known and worked with him for such a long time. He was honest, forthright, loyal and so very dependable. There wasn't a lazy bone in his body. The way he developed professionally...from being part of a tiny group in Covercraft's early days where there was just one product and everything was done by hand, to managing a sophisticated and diverse manufacturing facility with hundreds of employees...was truly remarkable. He remained down to earth and had a great sense of humor. He was very devoted to his family, and it was delightful to see his face light up at the mention of Luree or Leasa's names.*

We extend our deepest sympathy to his family. Ray was a special person and will be missed.

“ I was given the honor of first meeting this man as a teenager entering the work force almost 30 years ago. What an amazing impression he has left on my life. A true hard working, dedicated, and caring gentleman he was. No matter what had him rolling through the plant at his typical fast pace, he always had the time to stop and talk about this weekends NASCAR race, or our next softball game coming up. Even though our daily connection parted several years ago, when I had the opportunity to visit with him about a year ago, it was as if time had stood still and we picked up where we left off. You will always live in my heart and thoughts my friend. Thank you for being a positive mentor in my life. Christy and I will miss you dearly.

“ We were all so grateful to have met him! He was one of the most kind and humble patients that would never ask for anything. He talked so highly about his family! We will never forget how giddy he got when he was finally able to introduce us to his daughter. The Phase 1 team will miss him greatly! Fly high Ray!!!

“ Ray was married to my Daughter for many years and gifted us with our Grand Daughter, Luree. Ray always remained a part of our Family as well as bringing us Leasa when they were married. Another welcome addition to our family that we also love. When Yvette first introduced me to Ray. I was a little taken back, being a cop, I immediately took notice of a couple of his tattoos and a license plate frame on his truck with a questionable phrase being it was my daughter he was dating! However, it didn't take long for me to get past those tattoo's and the phrase on the license plate frame to realize just what an incredible man he was. I saw how much he cared for Yvette and how respectful he was towards her and Reyna (my former wife and Yvette's Mom). Then I found this man had something I truly respect--an incredible work ethic. Ray worked hard his entire life and was one of those Employee/Managers that business owners dream of getting. Over the 30 some years I have known Ray, I can say we never had an angry word and I loved him as if he were my Son. My entire family loved Ray and he was more a part of our family than some of my other family members! When Ray married Leasa, She too became a loved part of our family as well and also became fast friends with Yvette as well. We will dearly miss this wonderful man. Thank you Reyna and Nazir for the incredible support you provided during this trying time. You went well beyond what anyone would expect and thank you Yvette for helping not only Leasa caring for Ray but for stepping up and making Luree's journey with her Dad possible by being there for the entire Family. RIP Ray----You will be dearly missed. PS: I hope the photo of Ray and I at Cabo San Lucas posts.

“ I am truly honored and blessed to have known Ray as a coworker & a friend. Though we stayed in touch over the years off and on, I'm so thankful we reconnected and had the time to share our joys of grandchildren. He was so excited to tell me the news of Hailee! His heart was full when she arrived and couldn't wait to share pictures! He was such a proud grandpa! I'm thankful he was able to make such wonderful memories with her! He loved his family more than anything and loved sharing what was on his heart. I can remember when Luree was young and she would make her visits to Oklahoma, Ray would be on clouds with excitement and couldn't wait for her arrival, then Hailee comes along and it was a new kind of excitement and a new anticipation to see her. "A grandchild changes your heart, a new kind of love" he said. Ray was a person you could talk to about anything. When you were in his presence, he gave you his full attention and made you feel you were the only one in his world in that moment in time. May memories be on the minds of all who knew him and loved him. You will be missed Ray and I will always remember you as someone special in my life.
Sleep in peace my friend.
My deepest condolences to Leasa & Luree and to all of Ray's family. May "your" memories give you comfort and peace in your unimaginable time of loss. God Bless

“ Ray was a great guy to work for. I miss his “whatcha doin darlin” and his “girls girls girls” that he said frequently. He was an awesome manager, had a great personality and in general just a funny guy. I have been blessed to have known him. I have many good memories of him.

“ Ray will be missed by everyone that ever knew him. He was a skinny man with a huge presence and friend to all who met him. I missed his kind words, sarcasm and hugs when he left Covercraft but the memories made will last a lifetime. Rest in peace my friend. Gone to soon but never forgotten. Prayers for Leesa, family and friends.
