“ Mom and Jack have always worked on home remodeling or home projects together but we're so accident prone I was always scared one of them wouldn't survive it. One example was when Mom was backing up the truck after unloading and thought Jack was elsewhere. He happened to be standing further back at the side of the truck and Mom backed up with the door opened and knocked Jack down. Another time they were burning wood and Jack handed her a 2x4. The problem was that it was burning on the underneath at the end Mom grabbed. It was a miracle they survived some of those projects!!

I met Wilma a year, 2 months ago and she was my bonus grandma from day one. She always kept a smile on my face, she's the reason I came to work. She would always make my day better, I will miss her dearly and miss the sweet kisses and hugs she would give me. I'll forever be her "little girl" mini Celina.
